

VisionCare Retina Centre

Ophthalmology referral

Patient: Ramesh Mehta DOB: 1952-03-11 Sex: Male ID: ELD-2026-014
Encounter date: 2026-03-01

Referral reason

Annual diabetic retina screening requested because of persistent hyperglycemia and 12-year history of type 2 diabetes.

Symptoms

Patient reports occasional blur while reading in the evening but denies acute vision loss or flashes.

Plan

Dilated retinal exam in 2-4 weeks. Family should monitor if sudden visual symptoms occur and seek urgent review if they do.
