

VisionCare Retina Centre

Ophthalmology referral

Patient: Ramesh Mehta DOB: 1952-03-11 Sex: Male ID: ELD-2026-014
Encounter date: 2026-06-08

Referral reason

Annual diabetic retina screening requested because of persistent hyperglycemia and a 12-year history of type 2 diabetes.

Symptoms

Patient reports occasional blur while reading in the evening but denies acute vision loss or flashes.

Scheduled visit

Retina clinic appointment confirmed for 2026-06-28 for diabetic eye screening. Seek urgent review if sudden visual symptoms occur before then.
