

Stride Foot Clinic

Podiatry foot care review

Patient: Ramesh Mehta DOB: 1952-03-11 Sex: Male ID: ELD-2026-014
Encounter date: 2026-06-12

Visit summary

Feet inspected because of diabetic neuropathy symptoms. Skin is intact. Callus under right great toe. Protective sensation mildly reduced at both forefeet.

Advice

Wear cushioned footwear, avoid barefoot walking, and continue daily foot checks assisted by daughter if needed.

Next appointment

Podiatry follow-up appointment booked for 2026-08-12 for diabetic foot surveillance or sooner if redness, skin breakdown, or new pain occurs.
