

Preventive Health Clinic

General wellness and preventive care review

Patient: Ramesh Mehta DOB: 1952-03-11 Sex: Male ID: ELD-2026-014
Encounter date: 2026-06-14

Review focus

Preventive care visit focused on fatigue, appetite, hydration, vaccination review, walking routine, and overall daily function rather than diabetes medication management.

Assessment

Weight is stable, appetite is fair, walking tolerance has improved, and family support is helping with hydration prompts and meal timing.

Next appointment

Preventive medicine appointment scheduled for 2026-09-15 for annual wellness review and vaccination planning.
